\$100

What would you do with \$100?

Does your **ENERGY ACTION PATROL** need start up money for projects you would like to do? Do you need cash for materials like markers, poster paper, film or blank videos to make a multimedia presentation? Would you like to get prizes for the many activities you want to lead in your school?

Johnson Controls, Inc., and the National Energy Foundation would like to sponsor you with a mini grant!

Write a proposal! Include what activities you are planning to sponsor and what materials you will need. An Energy Action Patrol Plan form is enclosed to help you. Keep it short and simple; just tell us what you would like to do!

Proposals should be hand written, with the signatures of the teachers who will be carrying out the program and your principal on the cover page. If students are available, it is good to have them help in planning and sign as well. Student signatures are NOT required.

Please note that funds are ONLY available for energy conservation activities, not for recycling programs. We support recycling in the schools and will anything to help you, but the funds for the program have been earmarked by the sponsoring organization.

Funds CAN be used for food and prizes to support conservation contests and to reward patrol members.

Deadline for the application is [September 27!](#) It takes two to three weeks for checks to be issued. Since October is ENERGY month, we would like for you to have this mini grant as soon as possible! Write and send your application today! Any questions call Robin at 454-9737 or 223-4022.

You may send us the grant in one of 3 ways:

Send via courier to Robin Reinarts at Lewis Carroll Elementary

Fax to (321) 454-9737

Or via e-mail robin@nef1.org (scan and email, we need the signatures)

Please save this cover sheet for your bookkeeper.

Patrol Startup Fund Mini-Grant

School Name: _____

Teacher or Sponsor(s) Name(s): _____

Name of Patrol: _____
